

William & Mary Parking Study

College of William & Mary, Virginia

Description

FHI was part of a team selected to perform a parking analysis and needs study at the College of William and Mary. One of FHI's main roles on this project was data collection activities for the needs assessment portion of the project which included determining parking usage on and off campus. FHI also coordinated and led focus groups meetings aimed at determining the attitudes and ideas of the faculty, staff and students at the campus.
