

## Vermont Rail Policy Plan Statewide Vermont

---

### **Description**

Under contract to the Vermont Agency of Transportation, FHI assisted in preparation of the State of Vermont Rail Policy Plan. The purpose of this project was to assist in the identification and formulation of rail policies that will guide present, near term and long range needs and investments of Vermont's railroad industry. Work tasks included data collection and analysis and coordination of the public involvement process. FHI also coordinated input from all of the state regional planning agencies and other various stakeholders.
