

South Weymouth Development Review South Weymouth, Massachusetts

Description As part of a project team, Fitzgerald & Halliday, Inc. (FHI) performed a peer review of initial traffic data and infrastructure improvements for the proposed re-use of the Naval Air Station in Weymouth, Massachusetts. The Village Center, is a proposed mixed-use development including: residential, retail, office, biotech facilities, mass transit and community sports complex. Work tasks included review of trip generation and distribution, review of development and phasing plans and presentations at Town meetings (Weymouth, Rockland and Abington).
