

Public Stakeholder Meetings Massachusetts Freight and Rail Plan

PUBLIC MEETINGS

The Massachusetts Executive Office of Transportation invites you to attend public stakeholder meetings to learn about the state freight and rail plan which is under development and to share your concerns and ideas of how to improve transportation.

The State Freight and Rail Plan is a comprehensive evaluation of all modes - air, rail, truck and maritime transportation. The Plan will address freight and rail infrastructure and operations as well as the policy and regulatory environment. The plan will also include a detailed analysis of all rail infrastructure and operations, both freight and passenger.

Meetings are scheduled for the following dates and locations.
